☑ Payment Issues Fixed - Complete Summary

🔧 Issues Addressed:

1. ☑ Payment Refund Handling

Status: IMPLEMENTED

What happens when payment is refunded/cancelled:

- User is immediately downgraded to FREE tier
- Subscription status changes to 'refunded'
- Payment record updated with 'refunded' status
- All webhook events logged for audit trail

Webhook Events Handled:

- ☑ `order_refunded` - Downgrades user, updates payment status
- ☑ `subscription_payment_failed` - Marks payment failure
- ☑ `subscription_cancelled` - Keeps PRO until period end
- ☑ `subscription_expired` - Downgrades when expired

---

2. ☑ Subscription Visibility (From-To Dates)

Status: IMPLEMENTED

New Features:

- **Subscription Banner** on Dashboard showing:
  - Current subscription status
  - Expiry date (e.g., "PRO subscription active until April 6, 2026")
  - Days remaining with progress bar
  - Visual alerts for expiring/expired subscriptions
  - "Renew Now" button for expired subscriptions

API Endpoint:

```
GET /api/billing/subscription
```

Response:

```
{
  "success": true,
  "hasSubscription": true,
  "tier": "pro",
```

```
    "status": "active",
    "currentPeriodEnd": "2026-04-06T00:00:00.000Z",
    "daysRemaining": 30,
    "isExpired": false
  }
```

###3. ☑ **Multi-Month Subscription Plans**
Status: IMPLEMENTED

Available Plans:

Duration	Price/Month	Total Price	Discount	You Save
1 Month	₹349	₹349	0%	₹0
3 Months	₹314	₹942	10%	₹105
6 Months	₹297	₹1,781	15%	₹314
12 Months	₹279	₹3,350	20%	₹838

How to See Multi-Month Options:

1. Click "Upgrade to Pro" button
2. You'll see all 4 duration options with pricing
3. Select any plan (3 months is pre-selected as most popular)
4. Discount is automatically applied
5. Click "Upgrade for ₹XXX" to proceed

🧮 What You'll See Now:

Dashboard Changes:

1. **Subscription Banner** (new!) - Shows:
   - ☑ Active subscription with expiry date
   - ⚠ Warning when < 7 days remaining
   - ❌ Critical alert when expired or payment failed
   - 🔄 Refund status if payment was refunded
2. **Upgrade Modal** (updated!) - Shows:
   - 4 clickable plan options (1, 3, 6, 12 months)
   - Monthly price breakdown
   - Total savings for each plan
   - "Most Popular" badge on 3-month plan
   - "Best Value" badge on 12-month plan

Color Coding:

- 🟢 **Green/Normal**: Active subscription, > 7 days remaining
- 🟡 **Yellow/Warning**: Less than 7 days remaining
- 🔴 **Red/Critical**: Expired, payment failed, or refunded

💻 Technical Implementation:

Backend:

- ☑ Refund webhook handler added
- ☑ Multi-month expiry calculation fixed
- ☑ Subscription status API endpoint
- ☑ User model updated with 'refunded' status

Frontend:

- ☑ Multi-month plan selector in UpgradeModal
- ☑ SubscriptionBanner component added to Dashboard
- ☑ Pricing API integration
- ☑ Visual progress bars and alerts
- ☑ Responsive design for mobile

🧪 How to Test:

Test Multi-Month Plans:

```
1. Open your app
2. Click "Upgrade to Pro"
3. You should see 4 plan options
4. Select "3 Months" (₹942, Save 10%)
5. Click "Upgrade for ₹942"
```

Test Subscription Status:

```
# Via API:
curl http://localhost:5000/api/billing/subscription \
  --cookie "your-session-cookie"

# Via UI:
1. Login to dashboard
2. Look at the top - you'll see subscription banner
3. Shows: "PRO subscription active until [date]"
4. Progress bar shows days remaining
```

Test Refund Handling:

```
# In Lemon Squeezy dashboard:
1. Go to Orders
2. Click on an order
3. Click "Refund"
4. User will be immediately downgraded to FREE
5. Status changes to "refunded"
```

📊 Database Structure:

User Subscription Field:

```
subscription: {
  lsOrderId: String,
  lsSubscriptionId: String,
  status: 'none' | 'active' | 'payment_failed' | 'cancelled' | 'expired' |
'refunded',
  currentPeriodEnd: Date,  // When it expires
  cancelledAt: Date
}
```

Payment Model:

```
{
  status: 'pending' | 'paid' | 'failed' | 'refunded',
  amount: Number,
  currency: 'INR',
  webhookEvents: Array  // All events logged
}
```

🚀 Next Steps:

1. **Test the new features:**
   - Try selecting different month options
   - Check the subscription banner on dashboard
   - Test refund flow in Lemon Squeezy
2. **Optional Enhancements:**
   - Add email notifications for expiry warnings
   - Create admin panel to view all subscriptions
   - Add auto-renewal reminders

3. **Before Production:**
   - Set `preview: false` in lemonSqueezyService.js
   - Set `testMode: false` in lemonSqueezyService.js
   - Configure webhook URL in Lemon Squeezy

└──────────────────────────────────────┘
```

Subscription Banner:

```
┌──────────────────────────────────────┐
│ 📅 PRO subscription active until        │
│    April 6, 2026 (30 days remaining)   │
│ [▓▓▓
```

Q: Can users extend their subscription?
A: Yes! If they purchase while active, the new duration is added to their current expiry date.

Q: Is there double-payment protection?
A: Yes! The checkout route blocks new purchases if user already has an active subscription.

All systems are ready! 🎉

Your payment module now has:

- ☑ Multi-month subscriptions
- ☑ Subscription visibility with expiry dates
- ☑ Refund handling
- ☑ Automatic expiry checking
- ☑ Double-payment protection
- ☑ Beautiful UI for plan selection

Just restart your servers and test it out!
